

OUTING BOOTS

A NEW MODEL FOR THE LADIES
JUST RECEIVED IN ALL LEATHERS

Do you know that the shoes you select for outing and bad weather can be just as smart, just as correct in style for their purpose as the dainty Pumps or Boots you choose for afternoon or evening wear. Correct Fifth Avenue fashion is a built-in part of every Osburn model. The best dressed women have found that the way to have New York style is to wear Osburn shoes.

CALIFORNIA STATE FEATURES ARE GIVEN

In An Interesting Article by
One Who Knows Clarks-
burg Well.

(By Amos V. Jenkins.)
RIVERSIDE, Calif., May 19.—We have only been in California seven months, but during this time have seen many interesting things and visited several of the old Missions, mostly of which are now mere relics of by-gone days and are in a state of ruin and decay. In many respects this state stands in the fore-ground of progress. Its roads and fine climate alone make it popular. Here are to be found the finest oil roads and driveways in the United States, and on either side stretch magnificent rows of palms and pepper trees. Many of the driveways are double with miles of flowers between. Others are arched over with tall eucalyptus trees. This tree has a peculiarity of its own, by never shedding its leaves, but the bark peels and falls to the ground once each year. The Indians gather it in baskets and sell it for fire wood. A short distance from this town and on Magnolia avenue is located the Sherman Institute, a school for educating and training the young Indians of which there are some 600 or more. These buildings

and grounds are magnificent. Here at the entrance of the school grounds is located Chemawa Park, one of the finest of its kind in the state. A number of different wild animals and birds seemingly of all kinds are kept at this park. A large herd of deer are interesting, and a turtle brought from off the coast of Labrador that weighs 510 pounds and travels around easily with two men on its back. Twelve years ago when it was brought here it weighed twenty-two pounds. A ball park and a polo grounds are kept open for the amusement of the Indians. This is the home of Chief Myers, of which the baseball public knows something, he being a graduate of this institute. It is claimed that this school has turned out some of the best athletes of any Indian school in the country.

In the automobile field the state stands second in number of cars, and it will only be a short time until it will stand first. It now has more than 105,000 cars. Over 5,000 licenses were issued during the month of April. Gasoline sells for twenty-five cents per gallon, but it is not as good a grade as we have back East. Riverside is not as large as Clarksburg but has ten garages, the Glenwood among

them, being the largest in the world. It is claimed.

Oranges, lemons, grape fruit, etc., are grown here extensively. The grape crop is quite a feature. Nine miles from here is located one of the many large wineries, and surrounding it is 22,000 acres of grape vineyards. We had the pleasure of passing through this vast grape field a few months ago when the vines were loaded with ripe grapes, and it was sure a sight to us. The company that owns this immense industry has its own water system, electric lighting outfit, etc. Good port wine is purchased at the winery for fifty cents per gallon. When the vines are pruned in the spring a large all metal wagon with hopper is drawn between the rows and that portion of the vine that is clipped off is tossed into this hopper and burner as the wagon is drawn along and the ashes are distributed between the rows.

We are about fifty miles from the Pacific coast. We can remember when the West Fork river cut at the "Old Fair Grounds" looked pretty big to us but what we have seen of the Pacific it looks bigger than that.

Fuel is extremely high here. Gas costs \$1.25 per thousand feet, and we came near having a fit the first gas bill we had to meet. Wood brings twelve to fourteen dollars a cord. Sunshine is about the only thing in the tree list in this country. We are told it is no unusual thing not to see a cloud in the sky for five months at a time. This is through the summer season. They have what they call the Santa Anna river near the town. In reality it is only a long stretch of white sand, and not enough water in it to float a mud-turtle, all the water being drawn out farther up the river for irrigating purposes. With a cloudless sky no water is allowed to run waste very far.

In one hour's ride to the foot hills of the San Bernardino mountains we see clear cold water spouting out from the crevices in the rocks, and not ten feet away pools of boiling water. And so it goes, many things of deep interest, and yet West Virginia holds treasures among its wooded hills that California would be only to glad to boast of.

EXPERIMENTS

Are Being Made by Oil Oper-
ators at Various Coun-
try Points.

In Harrison county there is a large amount of experimental work under way and starting. On Buckey's run, Tennille district, the Flint Oil & Gas Company is due in the Gordon at a test on the A. Flint farm. On Grass run, Treat and Rowland are still fishing at their test on the J. W. Marsh farm. On Jacobs run, Carvin & Strother have started to drill their test on the W. H. Carvin farm. On Flenderston run, A. Sheets & Company are due in the sand on the E. D. Sigley farm.

Housebuilding society is to erect 29 model houses for workmen in Amsterdam.

Peter Durbay, said to be the heaviest Civil War veteran, is dead in Chazy Lake, N. Y. He weighed 479 pounds.

NATIONAL BISCUIT COMPANY

GRAHAM CRACKERS

During the years that they have been on the market, millions of packages have been consumed—and the output is daily increasing. National Biscuit Company Graham Crackers are a revelation in goodness.

They are not only nourishing, but delicious. Try them. Always in the protecting package that keeps in their unique goodness. Always look for the In-er-seal Trade Mark.

GARBAGE HINTS

Suggestions From Citizens Regarding the Garbage Disposal Problem

Team and Wagon Needed.

Editors Telegram: Responding to your invitation for suggestions on the garbage disposal problem, I beg leave to offer the following:

The city has to provide an adequate and modern crematory; there is no way out of that.

As to garbage removal, that ought to be as simple as falling off a log. Let the city buy a garbage wagon and a team of horses, hire a driver and move the garbage itself. In my opinion there is not a taxpayer in the city who is not willing to pay for this necessary service.

ONE OF THEM.

Tank Street Car.

A prominent business citizen suggests that the city have a tank street car made to convey the garbage to a remote point in the country where it can be eaten up by chemical process and sold as fertilizer, thus making the plant self-sustaining. He would have the city use or regulate a wagon or two at points in the city, where the garbage can be dumped into the tank car. The city might be able to take the entire business over and bear the expense or it might be that either

a nominal charge or a small tax would have to be levied. If necessary the city could have a short spur or street car track laid from the main track to the rats. He is strongly of the opinion that locating a crematory a mile or two out and requiring residents to send garbage there would result in much hiding rather than pay the expense.

A Brief Suggestion.

Editors Telegram: I submit the following solution of the garbage problem:
1 modern crematory.
2 garbage wagons.
2 teams of horses.

OLD PRO BONO.

Approved.

Editors Telegram: The Telegram has taken exactly the right position about the garbage removal problem. Stick to it, and you will have the support of every citizen.

DENTIST.

Immediate Action Wanted.

Editors Telegram: I don't care a rap how the city disposes of the garbage just so it is done and done in a hurry.

HOTEL MAN.

CHARLES R. KIDD IS CLAIMED BY DEATH

Aged Resident of Point Com-
fort Passes on after a
Long Illness.

Charles R. Kidd, aged 60 years, better known to local people as "Jack" Kidd, is dead at his home on Maple avenue at Point Comfort after a long illness. The immediate cause of Mr. Kidd's death was pneumonia and heart trouble, but he had suffered for the last twelve years with rheumatism and had been unable to do any work in that time.

Mr. Kidd was born in 1853 at the Kidd home place at Point Comfort. As a boy he helped his father who was a pioneer transfer man in Clarksburg with his teams. When his father was elected town sergeant, Charles took charge of the teams and looked after his father's business until his death when the business became his. He worked at the transfer business until he was stricken with rheumatism twelve years ago.

In politics the deceased man was always a staunch member of the Republican party and although he never held any public office he was an active worker at many of the campaigns. The deceased man is survived by his widow, Mrs. Florence Kidd, three sons, two daughters, three sisters and six brothers. The sons are R. Edward, William Thornton and James S. Kidd, all of this city. The daughters are Mrs. William Hardman, of Wilsonburg, and Miss Mary Kidd, at home. The sisters are Miss Belle Kidd, of Cincinnati; and Misses Maggie and Mattie Kidd, of Point Comfort. The brothers are J. L. W. S. and Jonathan E. Kidd, all of this city; Benjamin and Leo Kidd, residing in the West, and David Kidd, of Grafton.

The funeral services will be held at 2 o'clock Wednesday afternoon at the home.

Kansas City, Kan., asks restoration of its old name, Wyandotte.

QUARANTINE LIFTED.

MARTINSBURG, May 19.—The smallpox quarantine has been lifted by Dr. C. E. Clay, city health officer, who declares the city is now free from the disease after an epidemic lasting several weeks. There was a number of cases but no deaths resulting.

SALEM

SPECIAL CORRESPONDENCE.
SALEM, May 19.—Mr. and Mrs. Charles W. Galt who recently went to Pittsburgh with their infant child to place it in a hospital there for treatment have returned, and are spending a few days with Mr. Galt's parents here.

Mrs. Mary R. Davis, of Kingwood, and daughter, Mrs. J. M. Orr, of Wilsonburg, were visiting Mrs. C. A. Schutte recently.

The ball game between Broadus Institute, of Philippi, and Salem College team was not finished here. Friday owing to the rain. Three innings were played, the score standing three to three.

Rogers Phillipart, a blower in the Modern window glass factory, will move to Vincennes, Ind.

J. D. Ray, who has been the manager and special buyer for the Salem department store, severed his connection with the firm Saturday and with his wife went to Washington, D. C., where they will reside.

Moxfield Jaffe, who is interested in the Wonder store at Clarksburg, was in that city last week looking after business interests.

Mr. and Mrs. A. M. Ritter and son, Edison, who went to Texas last January returned to Salem Saturday night. Mr. Ritter went West for his health and with a view of locating, but decided to return to his native state.

OLD AGE DEFERRED

ECHO FROM THE MEDICO-LEGAL SOCIETY.

A few generations back a man at 50 was considered old, gray-bearded and waiting for death. Note the change today: at a meeting of the Medico-Legal society it was stated that a man of 50 ought to have forty good years ahead of him and, thus at ninety be in the fulness of maturity.

What if you have seen sixty, or even seventy birthdays—temperate habits, fresh air and exercise, with a simple diet and a sufficient amount of sleep will guard your health.

If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron tonic Vinol.

We ask every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. Stone & Mercer, druggists, Clarksburg, W. Va.

Harms Students

More Than Most Anyone Else

The Chief of the Presbyterian Hospital in N. Y., Dr. Fisher, tells one very easy way to avoid physical ills.
His comments on

COFFEE

are most interesting (see letter in southeast corner).

If the subject appeals to you, try leaving off coffee and tea entirely, use Instant Postum and carefully note, day by day, the return to health and strength.

A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly and makes it right for most persons.

A big cup requires more, and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

Postum comes in two forms.

Regular (must be boiled.)

Instant Postum doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in cup of hot water.

"There's a Reason" for POSTUM

SPEAKS OUT.

Dr. C. Irving Fisher, for a quarter century at the head of New York's great Presbyterian Hospital, says in the New York Times of March 25, 1913:

"Coffee poisoning is becoming constantly more common in this country, especially among students, whom it harms more than it would harm almost anybody else."

"Coffee intoxication does not lead to wife beating, but its physiological effects upon some of its victims are almost as bad as those of alcoholic poisoning."

"We continually find at the various clinics signs of the harm done by the excessive use of tea and coffee among children."

"Surely this is quite preventable. Children not infrequently appear whose nervous and digestive systems have been wrecked by these two beverages."

McCreery and Company

PITTSBURGH

YOUR REFRIGERATOR

Be as careful of your food as of your clothes. Have a refrigerator that keeps clean, dry and pure.

The law compels your grocer and butcher to do that, but leaves the care of your food in your home to you.

The Seeger Refrigerator is the climax of ice-box manufacture. The fresh air system is a patented device no other maker can use. Its effectiveness is plain. The ice-chamber can be had on either the right or left side. The lining is one-piece with the corners rounded, for cleanliness.

Elastic Enameled Lined Refrigerator

Capacity of ice chamber 50 or 60 pounds of manufactured ice	\$30.00
75 pounds capacity	\$35.00
100 pounds capacity	\$40.00
175 pounds capacity	\$55.00

Porcelain Lined Refrigerators

Capacity of ice chamber 50 to 60 pounds of manufactured ice	\$35.00
75 pounds capacity	\$41.00
100 pounds capacity	\$49.00
175 pounds capacity	\$67.00
